---

SUMMARY

Multidisciplinary technologist and creative builder leading at the intersection
of deep engineering systems, generative AI, and expressive human experience.

CORE CAPABILITIES

- Scalable Architecture & Generative AI Systems: LLM tooling, neural agents, distributed workflows
- Creative Direction & Visual Storytelling: Interactive media, narrative pacing, spatial craft
- Executive Leadership & Product Execution: Cross-functional alignment, zero-to-one velocity

SELECT EXPERIENCE & HIGHLIGHTS

Lead Architect & Creative Technologist

Directed next-generation interactive systems, blending low-latency compute and rich front-end design.
Architected autonomous AI workflows with stateful orchestration and verifiable safety guarantees.

EDUCATION & CONTINUOUS INQUIRY

Advanced Systems Engineering, Computer Science & Visual Arts
